#### Book Description

Swamece Simeon has brought together the powerful exhortational messages that constitute the first part of this book. The book is all the more appealing in that it brings together writings and testimonies of persons from many parts of the world. Simeon's contribution comes, of course, from Africa—Tanzania—as do the first two testimonies—from South Africa—and the last, from Ghana. Other testimonies come from people in England, Scotland, and the New World—the United States and Canada. It all goes to show that the Spirit of the Lord is moving throughout the World, and that wherever we are—even in the desert of Saudi Arabia!—our hearts can be refreshed by the overwhelming and transforming love and power of our God.

## Foreword from the book:

This work is in effect a sequel to *Touched by God: Testimonies of Christian Power*, which brought together seven inspirational stories of God's supernatural intervention in the lives of Christian believers—testimonies that presented extra-biblical proof of God's divine power and love in the lives of Christian believers. The work was originally intended to be published under the title *Touched by Angels*, and I was waiting to receive some additional testimonies before going to press. However, Swaimec Simeon then approached me from Tanzania . Simeon, a committed and enthusiastic Christian, has brought together the powerful exhortational messages that now constitute the first part of this book. It occurred to me that the amalgamation of the two parts—the exhortational and the inspirational—would indeed make a very encouraging and inspiring book, not only for the unbeliever, but for both the young and established Christian who also needs encouragement in the walk of faith. The work is all the more appealing, too, in that it brings together writings and testimonies of persons from many parts of the world. Simeon's contribution comes, of course, from Africa — Tanzania —as do the first two testimonies—from South Africa —and the last, from Ghana . Other testimonies come from people in England , Scotland , and the New World —the United States and Canada . It all goes to show that the Spirit of the Lord is moving throughout the World, and that wherever we are—even in the desert of Saudi Arabia!—our hearts can be refreshed by the overwhelming and transforming love and power of our God. Angelic support and guidance can come from what many might describe as a 'supernatural' source, a divine intervention, as in the first testimony retold by the Rev Louis Bosch; but Inez Randolph, from Ghana, shows that it can also come from real and tangible, everyday sources, and that we might just find our guardian angel right beside us. Angelic work, indeed, whether it is helping our fellow humans or animals, can be done by a human agent, as we see in the story of Judi Gunn.
